Workforce Innovation Board of East Central Illinois

Introduction & Method of Solicitation

The Workforce Innovation and Opportunity Act authorizes the Workforce Innovation Board of East Central Illinois (hereafter referred to as the “WIB”) to conduct and engage in workforce development activities and to provide oversight of the local one-stop delivery system in Local Workforce Innovation Area #17 (LWIA 17). LWIA 17 serves residents in Champaign, Ford, Iroquois, Piatt, and Douglas counties. The WIB membership is appointed by the Chief Elected Officials for LWIA 17 and as required by federal mandate, includes individuals from the Business Sector (majority), Workforce Sector, Education and Training Sector, Governmental/Economic and Community Development Sector, and Other Sectors as deemed appropriate by the CEOs. The WIB’s principal function is the oversight of, and policy guidance to the workforce development system in LWIA 17. The WIB also makes decisions regarding the use of federal and state funds available for workforce activities.

The Workforce Innovation and Opportunity Act identifies two primary customers of our local workforce system including employers and job seekers. All services and programming provided under WIOA must take both into consideration for program implementation. The services provided to job seekers also serve to ensure that the needs of our business customers are met by aiding them with meeting their workforce and talent needs.

The workforce services to be provided shall be in accordance with the Workforce Innovation and Opportunity Act (WIOA), enacted July 22, 2014. WIOA supersedes the Workforce Investment Act of 1998 and amends the Adult Education and Family Literacy Act, the Wagner-Peyser Act, and the Rehabilitation Act of 1973. WIOA is designed to improve and streamline access to federally funded employment, education, training, and supportive services, to strengthen and improve our nation’s public workforce system, and help put Americans back to work.

WIOA is LWIA 17’s primary source of funding for workforce development services.

Respondents to this RFP shall be familiar with WIOA and the federal and state regulations applicable to the WIOA. Both WIOA and the regulations can be accessed on the Department of Labor’s site at www.doleta.gov and the Department of Commerce and Economic Opportunity at www.illinois.gov/dceo.

The Workforce Innovation Board of East Central Illinois is soliciting proposals from qualified applicants and/or organizations with the expertise and capacity to manage the day-to-day operations of the East Central Illinois WorkNet/American Job Center (hereafter referred to as “the Center”) and any affiliate sites located within the five county areas. The comprehensive

Center is located at 1307 N. Mattis Avenue, Champaign, Illinois 61821-1818. Affiliate sites in Ford County, Iroquois County, Piatt County, and Douglas County should also be considered. The Center(s) will be managed in accordance with the local strategic plan and policies developed by the WIB. The successful bidder will be required to align the system and center activities with the vision, mission, policies, and procedures set forth by the WIB.

This RFP is a competitive solicitation method being used by the Workforce Innovation Board of East Central Illinois to maximize the likelihood of selecting a high-performing, extremely competent provider to operate the Center(s) in LWIA 17.

Notice of this RFP will be published in a major newspaper in the surrounding areas, and distributed to an established bidder's list, additionally, the RFP, and all accompanying attachments, will be posted on all the County websites including Champaign, Ford, Iroquois, Piatt and Douglas counties.

The One-Stop Operator contract will be made for a 12-month period beginning July 1, 2025, with the possibility of being extended for up to three additional one-year periods with WIB approval through June 2029 depending upon the availability of funds, the contractor's performance, and the needs of the workforce area. The expected contract term under this solicitation will be from July 1, 2025, through June 30, 2026, provided measurable outcomes are successfully achieved and that sufficient funds, if required, for the contract term remain available. Please note that the option to renew is not guaranteed and the initial award of the contract does not imply an exercise of the option to renew.

LWIA 17 is a five-county workforce innovation area. Allowable costs may include, but not limited to, staffing costs related to coordination and integration of all Center services including resource room and receptionist coverage, any travel or mileage related to off-site coordination, and/or basic office supplies for staff. Additional staffing for the resource room and basic career services will be provided by partner programs through the MOU, when needed. One-Stop Operator funds may be changed based upon final MOU negotiations and issuance of additional guidance and final regulations.

The applicant is responsible for proposing a reasonable total cost for delivering One-Stop Operator services described in this RFP. Estimated maximum funding for this solicitation covering the 12-month contract is \$240,000. This amount is the estimated maximum availability of funding for each of the annual extensions following year one of the contract and shall not exceed \$960,000 (4-years).

All proposals will be evaluated on the basis of obtaining the most cost-effective price possible while achieving the highest quality service delivery. A cost analysis will be conducted on the proposed expenses during the proposal review process. Agencies are encouraged to submit their best offer for providing the services solicited and to thoroughly describe and justify the costs.

The cost analysis will be conducted to ensure that the proposed costs are necessary, fair, and reasonable; to determine if the proposed costs are allowable and allocable; to determine if there is a duplication of costs with other programs; to ensure that the costs are directly associated with carrying out only the proposed services; and to ensure that the proposed costs will benefit the workforce development system.

Staff from these other funding sources will be made available on a full-time basis and will be placed under the functional supervisor of the Contractor(s).

It is a requirement that Contractor(s) have the professional experience, prior training and applicable professional judgement within their staff/organization to perform or accomplish the proposed goals, objectives and activities submitted in accordance with workforce development services solicited in this RFP. As administrative staffing and funding are limited for the training and technical assistance to Contractor(s), Contractor(s) with prior WIOA experience may be given additional consideration for documented performance and understanding of workforce development programming as previously delivered.

Management Requirements

Bidders must be able to demonstrate the management and financial capability needed to effectively and efficiently deliver the program proposed. Management capability includes the ability to manage the delivery system effectively and efficiently, conduct self-monitoring for contract compliance, implement continuous improvement, achieve the contract objectives, provide quality service delivery, keep appropriate records in an auditable manner, and meet performance expectations.

Financial Requirements

This includes the ability to maintain fiscal controls, accounting procedures; financial reporting in accordance with generally accepted accounting principles, demonstrates sound financial practices, and shows evidence of continued financial stability. The successful bidder will maintain separate accounting records for any contract resulting from this RFP to ensure accurate and appropriate reporting of contract expenditure, and ensure that costs are tracked in sufficient detail to determine compliance with contract requirements and ensure funds have not been unlawfully spent. All accounting records must be made available for review upon request for examination, audit, or for the making of excerpts or copies of such record(s) for the purpose of determining compliance with all applicable rules and regulations, and the provisions of the contract.

Adaptations will be available for specialized populations such as those with language and cultural barriers including those with limited English proficiency, people with disabilities, as well as people with other challenges.

Systemic Collaboration

The one-stop delivery system envisioned in WIOA encourages local areas to bring together workforce development, educational, and other human resource services in a seamless customer-focused service delivery network that enhances access to services and improves long-term employment outcomes for individuals receiving assistance. While one-stop partners administer separately funded programs, they must be delivered as a set of aligned streamlined services to customers. WIOA governance structures of state, regional, and local planning and AJC infrastructure along with the formal processes of required Memorandum of Understanding (MOU) and joint policies enable and enshrine the collaboration and eliminate duplication. Too often, job training services are siloed, disjointed, and do not work together in an efficient and coordinated manner, and program administration can become focused more on program requirements and services than the ultimate needs of the customer. To deliver integrated services, the workforce system partners must work to align and connect their operations and systems. Further, case managers must not feel constrained by the services available in one program, but must have the training and ability to offer customers the services they need from multiple programs. The system cannot afford siloed programs and funding that limits services to customers.

Accountability & Reporting

- Develop and implement a system to gather, analyze, and report performance of core partners, center processes, and system services
- Perform continuous improvement activities to achieve high level of service quality and to enhance customer service

- Implement and oversee technology solutions to manage and support enhanced cooperation/coordination of core partner programming

A separation of duties (administrative, fiscal, and program oversight/monitoring responsibilities separated from program service delivery; and provision of direct training separated from basic and individual career services) is required to eliminate and avoid any conflict of interest or perceived conflict of interest and provide the appropriate quality checks and balances. Bidders must identify any current responsibilities and separations. Bidders not currently providing services in LWIA 17 are not required to provide overview of responsibilities and separations.

The WIB reserves the right to request additional data, conduct oral interviews, and/or conduct a management review of the evaluation process prior to making a recommendation of an award. The Chair of the evaluation committee or their designee will schedule the time and location for these interviews. The objectives of the oral interviews are to address areas of proposals that may need additional clarification and/or to ensure that the respondent has the requisite ability, capacity, etc.

Note: Handouts, promotional materials, videos, overheads, etc., are not permitted at oral presentations.

Selection of Contractor(s)

Selection of contractor(s) shall be in accordance with federal, state, and local standards. The primary consideration in selecting agencies or organizations to deliver services shall be the effectiveness of the agency or organization in delivering comparable or related services based on demonstrated performance in terms of the likelihood of meeting performance goals, costs, quality of training, and characteristics of participants.

Funds provided under WIOA shall not be used to duplicate facilities or services available in the area unless it is demonstrated that alternative services or facilities would be more effective or more likely to achieve the performance goals.

Each respondent submitting a proposal will be notified of the WIB's decision concerning their proposal. Formal notification to award contracts and the actual execution of a contract are subject to the following conditions:

1. Approval by the applicable committee and the WIB
2. Approval of the MOU budget by the partner agencies if costs are included in the proposal.

If the results of the review indicate, in the opinion of the review committee or the WIB, that the proposed service provider may not be able to fulfill contract expectations, the WIB reserves the right not to enter into contract with the organization, regardless of the ranking and/or approval of the applicant's proposal.

The WIB may require the selected one-stop operator to participate in negotiations and modify their proposals based on the outcome of those negotiations. The WIB may decide not to fund part, or all, of a proposal even though it is found to be in the competitive range if, in the opinion of the WIB, the services proposed are not needed, the goals of the proposal do not align with goals of the WIB, or the costs are higher than the WIB finds reasonable in relation to the overall funds available.

The WIB reserves the right to modify or alter the requirements and standards as set forth in this RFP based on program requirements mandated by state or federal agencies. In such instances, the WIB will not be held liable for provisions in the RFP that become invalid.

4. This RFP does not commit the WIB to award a grant, to pay for any costs incurred in the preparation for any RFP, or to procure a contract for services or supplies prior to issuance of a written agreement.
5. The WIB retains the right to accept or reject any/all proposals received, to negotiate with all qualified sources or to cancel in part, or in entirety, this RFP if it is in the board's best interest to do so. The board may require the selected bidders to participate in negotiations and to rewrite their applications as agreed upon during negotiations.
6. The WIB may modify any portion or terms of this RFP and may solicit additional proposals as necessary. The WIB reserves the right to modify or change this RFP based on rules, regulations, and requirements put forth by the US Department of Labor, the Illinois Department of Commerce and Economic Opportunity, or other regulatory entities.

In the event a proposer wishes to file a grievance in regards to the process, a grievance procedure is available and may be obtained from the WIB by contacting Dean Rose at ironhandrail@gmail.com.
